

# Mihret Tekalgn Hailemariam

## Software Engineer

✉ hailemariam.mihretthe@gmail.com 📞 +251979244427 📍 Addis Ababa, Ethiopia 🔗 LinkedIn 🐙 Github

### EDUCATION

#### Addis Ababa Science and Technology University,

07/2021 – 06/2025 | Addis Ababa, Ethiopia

*Bachelor of Science in Software Engineering* ⓘ

• CGPA - **3.68/4**

- **Relevant Courses:** Data Structure and Algorithm, Data Communication and Networking, Machine Learning, AI, Computer Graphics, Object Oriented Programming, Software Design and Architecture, Distributed System, Computer and System Security, Open-Source Paradigm.

### SKILLS

**Programming Languages:** Python | C++ | Dart | Java | JavaScript, **Web & Mobile Frameworks:** Django | React | React Native | Flutter, **Tools and Technologies:** Git | GitHub | WebSocket | Agile | Test Driven Development | WordPress, **Database:** MySQL | PostgreSQL

### PROFESSIONAL EXPERIENCE

#### Eskalate, Software Development Intern ⓘ

06/2024 – 09/2024 | Addis Ababa, Ethiopia

- Mentored a group of 7 interns during the learning phase, facilitating sessions on **Dart, Flutter, Clean Architecture, and TDD**.
- Served as Project Lead for the e-commerce app, managing a team of 3 and ensuring timely delivery through task coordination and progress tracking.
- Implemented **mobile-to-API integration**, enabling authenticated users to perform CRUD operations and complete in-app purchases via a built-in chat system.
- Delivered a fully functional e-commerce platform featuring **secure authentication, product management, and real-time communication**.

#### Africa To Silicon Valley (A2SV), Competitive Programming Trainer ⓘ

02/2025 – 11/2025 | Addis Ababa, Ethiopia

- Designed and delivered training in **data structures, algorithms, and coding techniques** to 80+ students, improving their performance in algorithmic contests.
- Created tailored exercises, contests, and lectures aligned with proficiency levels to accelerate mastery of key concepts.
- Led live coding sessions and provided personalized feedback to enhance students' **code optimization, debugging skills, and efficiency** under time constraints.
- Mentored students through the learning phase and summer internship projects, guiding them in applying theoretical knowledge to real world problems.

#### AddisCoder, Teaching Assistant ⓘ

07/2025 – 08/2025 | Addis Ababa

- Assisted 120+ students nationwide in Python, algorithms, and Computer Science fundamentals, providing one-on-one **mentorship, debugging support, and hands-on labs**.
- Collaborated with professors to design lesson plans and grade assignments, contributing to a **40% improvement** in student performance from the first to fourth quiz through targeted guidance and structured practice.

### PROJECTS

#### Smart Farming IoT System, Smart Farming System ⓘ

10/2023 – 01/2025

- Collaborated in a **multidisciplinary team of 11** members from 6 engineering disciplines to design and implement a smart irrigation system using **ESP8266 and Arduino**, enabling automated water control based on **real-time data**.
- Developed **Arduino and React Native integrations via WebSocket**, achieving seamless two-way communication between hardware and mobile devices.
- Empowered farmers to monitor and control irrigation remotely, improving water efficiency and reducing manual labor in alignment with **UN SDG 2: Zero Hunger**.

#### AI-Powered Parental Tracking System for Autistic Children

09/2024 – 05/2025

- Led a team of 5 to develop an **AI-powered mobile app** that helps caregivers monitor and support autistic children's health and development through an intuitive **Flutter** frontend built with **Clean Architecture**.
- Integrated AI models using **Python** to analyze behavioral data and generate personalized care reports with 85%+ accuracy; contributed to backend development by designing 15+ **Django RESTful APIs** and securing health data storage.
- Designed and implemented key features for logging children's behaviors, displaying analyses, **generating care reports**, and enabling a community forum for parents to share challenges, leveraging **Dart** and **Gemini** for smooth functionality.

### LEADERSHIP AND ACHIEVEMENTS

#### Google Developers Group, Data Structures and Algorithm Mentor ⓘ

10/2024 – 05/2025

- Mentored 30 students in data structures and algorithms through hands on sessions, lectures, and coding exercises.

#### SheCodes AASTU, Python Team Lead ⓘ

04/2024 – 08/2024

- Initiated and led a Python mentorship program at She Codes AASTU, connecting 8 mentors with 24 learners to strengthen skills, engagement, and project outcomes.

#### 11th place, The 2024 ICPC Ethiopian Collegiate Programming Contest ⓘ

10/2024
